9 / 11 FACTS

1. The towers had asymmetrical damage, but fell symmetrically at nearly free-fall speed in 10 sec.

while collapsing in the direction of greatest resistance. "6 million square feet of masonry... 5 million square feet of painted surfaces... 7 million square feet of flooring... 600,000 square feet of window glass... 200 elevators... and everything came down as dust." ~Gregg Meeker, US Geological Survey, Chemical & Engineering News, on the collapse of the WTC towers.

2. There were several different war games & military exercises in play (Vigilant Warrior, Vigilant Guardian) on the morning of 9/11. They simulated hijackings of planes, hitting specific buildings (WTC, Pentagon, Whitehouse) using the planes as missiles, and chemical and biological attack scenarios. This means that the nice people who were meant to protect us that morning, had no idea whether or not 9/11 was real, or all part of the military exercise.

3. Aug 2005 the 10,000 page NIST "The Final Report on the Collapse of the Twin Towers", does not even explain how the towers collapsed. April 2007 NIST stated "...we are unable to provide a full explanation- of the total collapse." as well as "NIST did not test for the presence of explosive residue."

4. June 2007 FEMA report by Professor Steven E Jones, PhD; Appendix C shows that Nano-thermite composite materials were found in the WTC dust.

5. Ground zero was so molten hot, that a constant stream of water had to be sprayed on the rubble, eventually forming a "lake". The fire wasn't fully extinguished until Dec 13, 2001, making this the longest structure fire, ever.
